

Question I

Q1. Do you have sufficient information and understanding of the **value chain technique** to be able to apply in your country?

If so, what would be your top priority use cases?

If not, what else do you need?

Question II

Q2. Similarly, do you have sufficient information and understanding of the **cost-benefit analysis technique**?

What else do you need?

Questions III

Q3. What are the strengths and weaknesses of the project itself? How could it have been differently in order to be more readily valuable to the future work of your organization?

Questions IV

Q4. What should be the next steps of the project?

Questions V

Q5. What are other (3D) topics relevant to be funded in a joint funding way?
